ENTER THE LEGO® CREATOR MINI-MODEL MADNESS BUILDING CHALLENGE!

LESS THAN 50 BRICKS

All entries
must be received
by May 1st,
2006

Not every awesome LEGO creation has to be big and complex and use thousands of pieces – some of the very best LEGO models are the smallest! (Don't believe us? Check out the building instructions on page 27 of this issue.) Here's your chance to show that you can do more with less in the LEGO Creator Mini-Model Madness Contest!

Build an original LEGO model of anything you like using 50 pieces or less from your LEGO® collection. You could be one of five (5) people to win a LEGO set of their choice worth up to \$100! ■

Open to LEGO BrickMasters only.

TO ENTER:

No purchase necessary.

1. Build a model of whatever you choose using 50 pieces or less from your LEGO® collection.
2. Take a color photograph of your model (make sure it's in focus!). Only color photos and photo-quality print-outs will be accepted – no Polaroids, please.
3. Include the name of your creation along with your own name, age, mailing address and telephone number. Remember, all entries become the property of sponsor.
4. Mail your photograph (don't fold it!) and information to:

LEGO® Creator Mini-Model
Madness Building Challenge
P.O. Box 1625
Enfield, CT 06083-1625

NO PURCHASE NECESSARY. One (1) entry per person. All entries must be received by midnight May 1st, 2006. Offer void where prohibited or restricted by law. Models must be constructed using only pieces from your LEGO® collection. Employees of LEGO Systems, Inc. ("Sponsor") and its affiliates and subsidiaries, advertising promotions agencies and their immediate families are not eligible to participate. Entries will be judged based on originality (50%) and creativity (50%). Five (5) winners will be selected from all eligible entries. Estimated total retail value of each prize: \$100.00. Sponsor reserves the right to substitute prizes of equal or greater value. LEGO Systems, Inc. and its affiliates and subsidiaries are not responsible for late, lost, misdirected, mutilated or damaged entries. All entries become the property of Sponsor and will not be returned. By participating in this contest, entrants agree to be bound by the official rules and decisions of the judges.

Show off your first *Ferrari* at the race!

You're bound to draw attention when you show up at the race in this beauty—the Ferrari F430 Spider! Nobody will doubt that you walk the Ferrari walk, but you'd better make sure you can talk the Ferrari talk! Lucky for you, there are tons of Ferrari Formula 1 Facts online at www.lego.com/racers for you to brush up on to make sure you're ready for the race! Learn the answers to questions like...

Ferrari

OFFICIAL LICENSED PRODUCT

What is the name of the Formula 1 race?

What color is the Ferrari Formula 1 racecar?

Which Formula 1 driver won the championship 5 years in a row?

Look for clues to answer these questions, right in these LEGO Racers sets!

Then, go to:
www.lego.com/racers
to check out more Ferrari Facts and take the Formula 1 quizzes to find out if you're a rookie or veteran racer!

How many people are needed to change a Formula 1 tire?

BUILD A **super stunt track** AND WIN!

With the **NEW Power Racers**, you already have the skills to perform the stunt -- now all you need is a place to show them off!

Build a track where the Jump Master can jump, the Fire Spinner 360 can do donuts, the Action Wheelie can pop a wheelie and the Side Rider 55 can ride on its side! Build a super stunt track for your Power Racers and you could win a LEGO set of your choice worth up to \$100! **Plus, the 3 winning models will be featured in an upcoming issue!**

To Enter

1. Build a Power Racers Stunt Track using pieces from your LEGO collection.
2. Take a color photo of your model. (color photos and high quality computer print-outs accepted only. No Polaroids, please.)
3. Send us the name and description of your stunt track, your name, age, complete mailing address, and daytime phone. (Please print or type.)
4. Mail your photo and essay, with required information to:

A Multi-Generation LEGO® Creation

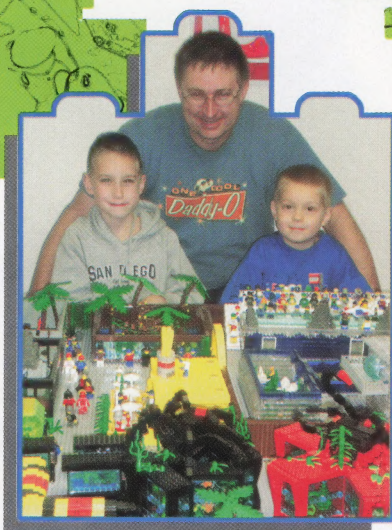

Derryl DePriest and his two sons, Dylan and Wyatt, are not just the builders of this awesome model, they're living proof that LEGO building is a tradition that will be passed on and on from one generation to the next. That's because the imagination is something that never goes away, no matter how old you are. And just look what happened when two generations of imagination combined!

 Six brave Matoran – Velika, Garan, Balta, Dalu, Kazi, and Piruk – are fighting against the evil Piraka who have seized control of their island. But the Piraka are planning to capture them and end their rebellion! Can you find the Matoran on these pages before the Piraka do? ●

WHEELS AND WINGS OF THE BATMAN!

Batman has always relied on the Batmobile, the Batwing, and other amazing machines in his battle against crime in Gotham City! Here's a closer look at four of the Dark Knight's most powerful vehicles:

7781 The Batmobile™: Two-Face's Escape •

The Batmobile

The Batmobile is one of the most advanced high-performance automobiles ever built, combining the power of a high-performance racecar with the technology of a Stealth jet. Turbo-charged, armored and bulletproof, the Batmobile can overtake any villain's getaway car and stand up to even a double dose of Two-Face's weapons.

Acceleration: 0-60 mph in 2.4 seconds

Max Speed: 266 mph

Engine: 1500 horsepower jet turbine

Fuel: Gasoline/ethanol mix

7782 The Batwing™: The Joker's Aerial Assault

Batwing

Some of Batman's enemies, like the Joker, have aircraft of their own, and only the Batwing can challenge them in the sky! The Batwing is equipped with stealth technology to make it invisible to radar, as well as silent running turbines so it cannot be heard. Its weaponry makes it more than a match for the Joker Copter or any other villain vehicle.

Altitude Ceiling: 60,000 ft

Max. Speed: 4400 mph

Range: 2486 nautical miles

Refueling Time: 7.8 minutes

7779 The Batman™ Dragster: Catwoman™ Pursuit

Bat Dragster

When speed matters most, Batman can turn to the Bat Dragster. Designed for maximum speed over a short distance, it can easily outrace Catwoman's super-fast cycle. When not in use, Batman can take it apart and store it in special compartments in the Batmobile.

Acceleration: 0-300 mph in less than 5 seconds

Max Speed: Unknown

Engine: 5000 horsepower supercharged turbine

Fuel: WayneCorp brand rocket fuel

BATMAN

THE DARK KNIGHT LIKE YOU'VE
NEVER SEEN HIM BEFORE!

7780 The Batboat™: Hunt for Hiller Croc™

Batboat

The battle against crime isn't restricted to dry land. When Batman needs to tackle an enemy on the water, he uses his aqua-dynamic hovercraft, the Batboat. This amazing craft features state-of-the-art navigation and communications links, a jet engine, radar/sonar/global positioning system arrays in the bow, and more

Length: 25.4 ft
Width: 8.6 feet
Max. Speed: 150 mph

Batman's Secret Files!

Ue snuck into the Batcave and got a look at some of Batman's files on Friends and Foes! Check out the secret information on these pages, and watch for more LEGO BrickMaster-exclusive Batman news in Future issues. ■

Batman™/Bruce Wayne™

Batman has vowed to devote his life to fighting criminals and protecting the innocent. He is a master detective, a skilled inventor, and a great martial artist. Operating out of a secret Batcave beneath Wayne Manor, Batman uses his wits and his arsenal of crime-fighting devices to defeat those who threaten Gotham City. His secret identity is millionaire Bruce Wayne, head of Wayne Enterprises.

Batman Trivia:

Batman's costume is fire-resistant and his cowl is fitted with special lenses that allow him to see in the dark. As Bruce Wayne, he trained with some of the most skilled detectives, spies, and martial artists in the world to learn his craft before becoming Batman.

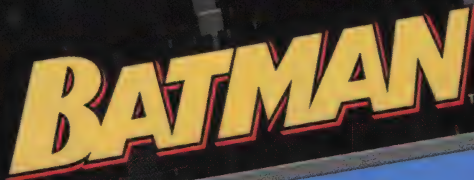

The Joker™

Batman's arch-enemy, the Joker was once a small-time thief who fell into a vat of chemicals while trying to escape from Batman. The toxic brew turned his skin white, his hair green, and his lips ruby-red, so that he looked like a crazed clown. Taking the name of the Joker, he started committing crimes involving jokes and puns. His favorite weapon is Joker venom, which leaves his enemies laughing helplessly while he gets away.

Joker Trivia:

Before becoming the Joker, he committed robberies wearing a metallic red mask and called himself "the Red Hood." The Joker's real name and what his life was like before he became the Red Hood is unknown — he may not even know himself!

LEGOBATMAN™

Catwoman™

Catwoman (Selina Kyle) is one of the most talented jewel thieves in the world. Although Batman has foiled her crimes many times, she does not hate him – in fact, she has even helped him at times in the past. Despite this, Batman still considers her a dangerous foe.

Catwoman Trivia:
In a fight, Catwoman relies on retractable razor-sharp claws and her bullwhip.

Killer Croc™

Immensely strong, Killer Croc is human but looks like a man-sized reptile. He has fought with Batman a number of times, relying on his sheer power and cunning to try to defeat the Dark Knight.

Killer Croc Trivia:
Before becoming a criminal, Killer Croc made his living wrestling alligators!

Mr. Freeze™

Victor Fries was once a scientist studying the medical uses of extreme cold. An accident turned him into Mr. Freeze, a criminal who uses a freeze gun to commit icy crimes. His chilling attempts to rob Gotham City have all been stopped by Batman.

Mr. Freeze Trivia:
Since his accident, Mr. Freeze can survive only in extreme cold and must wear refrigerated armor to function in normal temperatures.

Two-Face™

The man now known as Two-Face was once District Attorney Harvey Dent, a friend of Batman's. When his face was disfigured by a criminal, Dent went mad and became the criminal Two-Face. All of Two-Face's crimes are built around the number two (for example, robbing a baseball double-header or stealing a twin pair of valuable statues).

Two-Face Trivia:
Two-Face carries a two-headed silver coin, one side clean, the other side scarred. He flips the coin to make every decision.

BATMAN'S WORST ENEMIES HAVE ESCAPED ARKHAM ASYLUM AND ARE PLANNING TO TAKE OVER GOTHAM CITY!

What can you make out of 50 bricks or less? Enter the contest on page 2 and you might be one of five lucky winners!

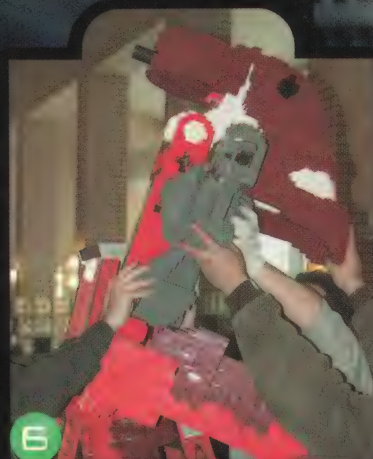

BUILDING A GIANT P

Master Model Builder David Gold and his team put in a lot of hours (and a lot of bricks!) to get the job done.

Just take a look!

Actual Hakann set for scale!

E It takes three pairs of hands to make sure the heavy model segment is fitted in its proper place.

PIRAKA

IS A BIG JOB!

What's more awesome than a villainous Piraka on the loose? Try a 12-foot high Piraka! This titanic model of Hakann is made almost entirely from LEGO bricks, with an electrified Zamor sphere and eyes that light up just like the real thing. This amazing BIONICLE® sculpture was created by the LEGO Master Model Builders! ■

Look for this super-size Piraka sculpture and much more BIONICLE excitement at the World's Fair for Kids this April in Orlando, FL and at Comic-Con International this July in San Diego, CA!

1 David and Jason Lamonde add the "lava blast" to Hakann's lava launcher:

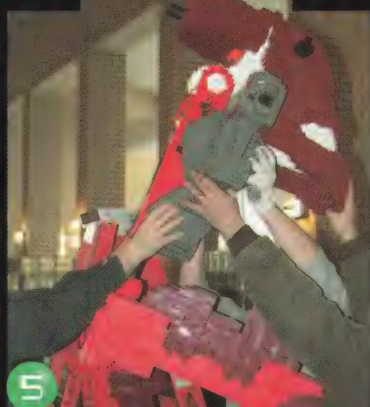

2 Attaching the model's left arm is heavy work. The zamor sphere actually crackles with electricity!

3 A delicate touch is needed to add the electrical wires that make the statue's eyes light up.

4 David makes some last-minute adjustments to part of Hakann's spine.

5 Time to add the head and neck on to the model!

7 Larger portions of the model are held together with metal pins.

8 Putting on the finishing touches!

MINDSTORMS®

By now you've heard the big news – LEGO® MINDSTORMS® is back! But before you start constructing the robots of the future, let's take a look at the MINDSTORMS sets of the past. ■

1998

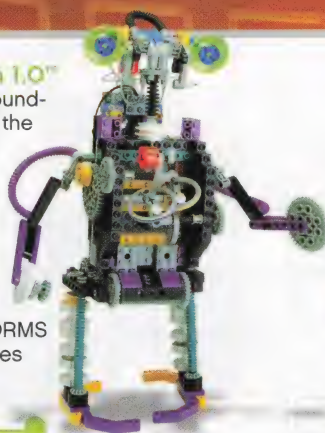

9719 Robotics Invention System 1.0™

Here's where it all began. With its ground-breaking programmable technology, the Robotics Invention System changed the face of LEGO building for countless kids and adults. Bricks would never be the same again!

9732 Extreme Creatures

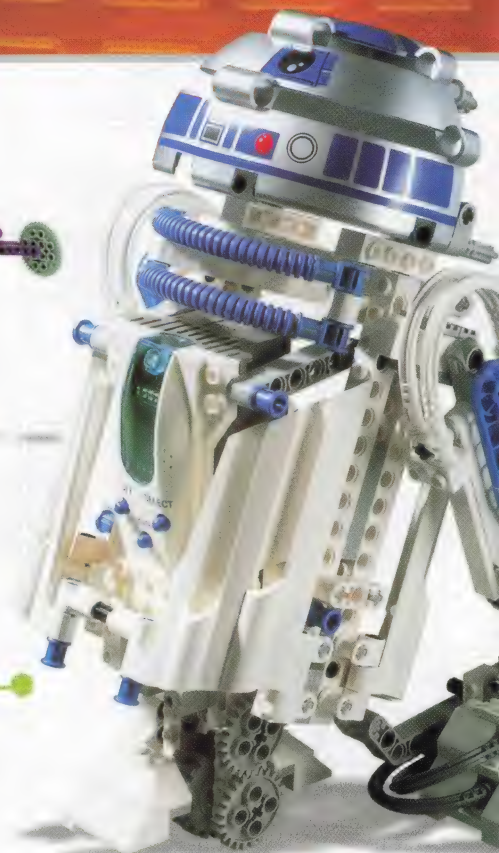

This early expansion set added bite to your MINDSTORMS creations, providing parts and instructions for creatures that could sting, snap, pinch, and pounce!

1999

9748 Droid Development Kit

In 1999, LEGO MINDSTORMS sets met Star Wars™! Aspiring Jedi Apprentices, Knights and Masters could build their own R2-D2, Micro Scout, and even the all-new, all-different L-3G0!

9736 Exploration Mars

Builders rocketed to the mysterious Red Planet in 2000 with this expansion set. Its pieces let you create all-terrain rovers, landers, and robotic retrieval arms, with challenges to simulate real Mars missions!

2000

3801 Ultimate Accessory Set

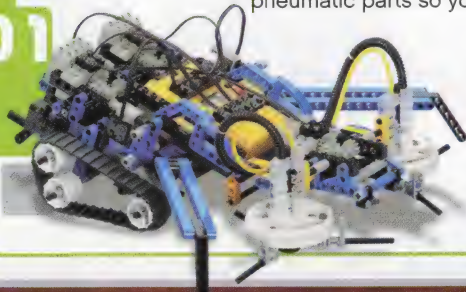

With a touch sensor, a rotation sensor, an infrared remote control, and lots of extra parts, the Ultimate Accessory Set made MINDSTORMS creations more awesome than ever!

3800 Ultimate Builder's Set

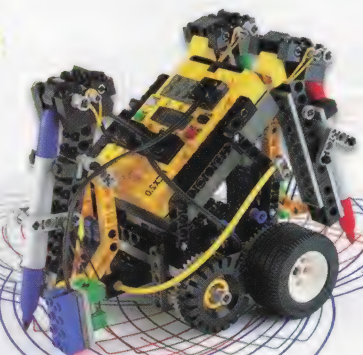

This 2001 expansion set included building instructions for seven different robotic creations. Best of all, it included transparent pneumatic parts so you could see all the action!

2001

3804 Robotics Invention System 2.0

With Pro Challenges and "Big Blocks" programming, the updated Robotics Invention System 2.0 used its RCX microcomputer to create a candy sorter, a robot arm, a drawing Artbot, and more!

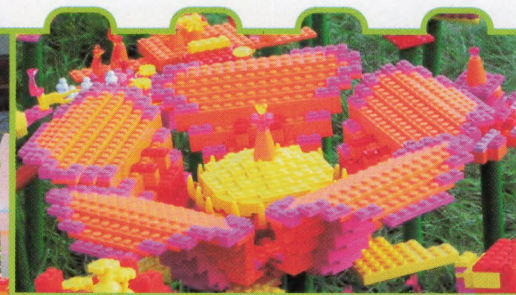

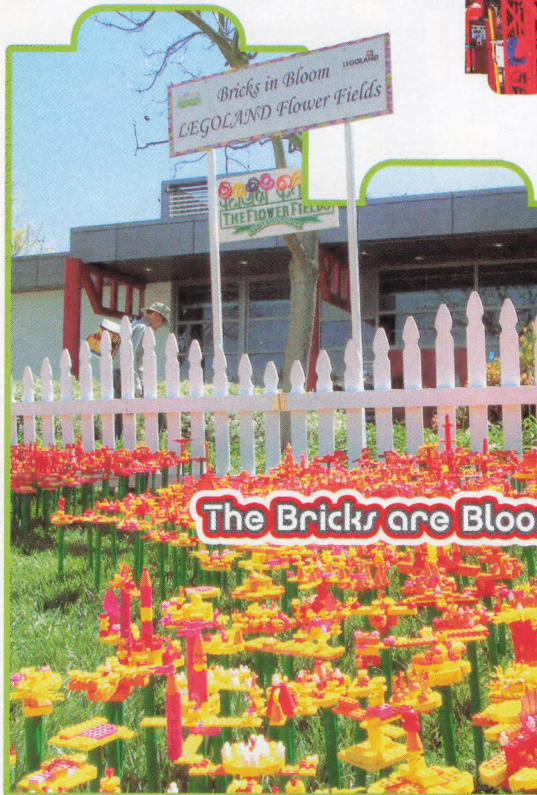

These hi-tech sets may not be for sale any longer, but they were still ahead of their time!

LEGOLAND[®] CALIFORNIA

LEGOLAND[®] California, the perfect Family vacation destination! Just like playing with LEGO[®] bricks, kids are the ones who create the action at the Park. You can drive, pedal, squirt, climb, jump, stomp, slide, steer, pull, click, push, gallop, laugh, build and program your way through more than 50 rides, shows and attractions! ■

The Bricks are Blooming at LEGOLAND California!

BEHIND THE SCENES: DOB AUGUST 15, 2005 STATS: 12.2" TALL, 6.6" CHEST, 5.1" WAIST

ALPHA REX'S

FIRST PUBLIC APPEARANCE

Hey! Name's Alpha Rex, I play the lead role in LEGO® MINDSTORMS® NXT, an amazingly entertaining experience heading your way this August. I'm the Face of the next generation of do-it-yourself LEGO robotics. Come backstage with me as I was getting ready for my premiere in Las Vegas at the Consumer Electronics Show!

DENMARK.

1/3/2006, 8:00AM:

Someone is wrapping me in clear, puffy paper and putting me into a suitcase... where am I going?

LAS VEGAS.

1/4/2006, 10:00AM:

Hopped out of my suitcase (good to stretch!). Lost an arm on the way, but someone snapped it back on (PHEW!) and fired up my 32-bit microprocessor. Juice flowed through my wires...heart started beating, and my three motors warmed up. Someone punched a button on my chest and I started practicing my moves.

2:00PM: My Ultrasonic Sensor is in signal overload — it detected people standing really close to me.

6:00PM: Hopped off an awesome ride on a hotel cart (tipped the guy \$10!) to make my first public appearance to 650 reporters. Flash bulbs popped, cameras rolled and I was KING!

6:15PM: Walked across the table, then danced side to side. Someone started singing to me (Whoa, Lady! Back it up!), and I danced faster. My Sound Sensor must pick up volume changes — so if it gets louder, I move faster.

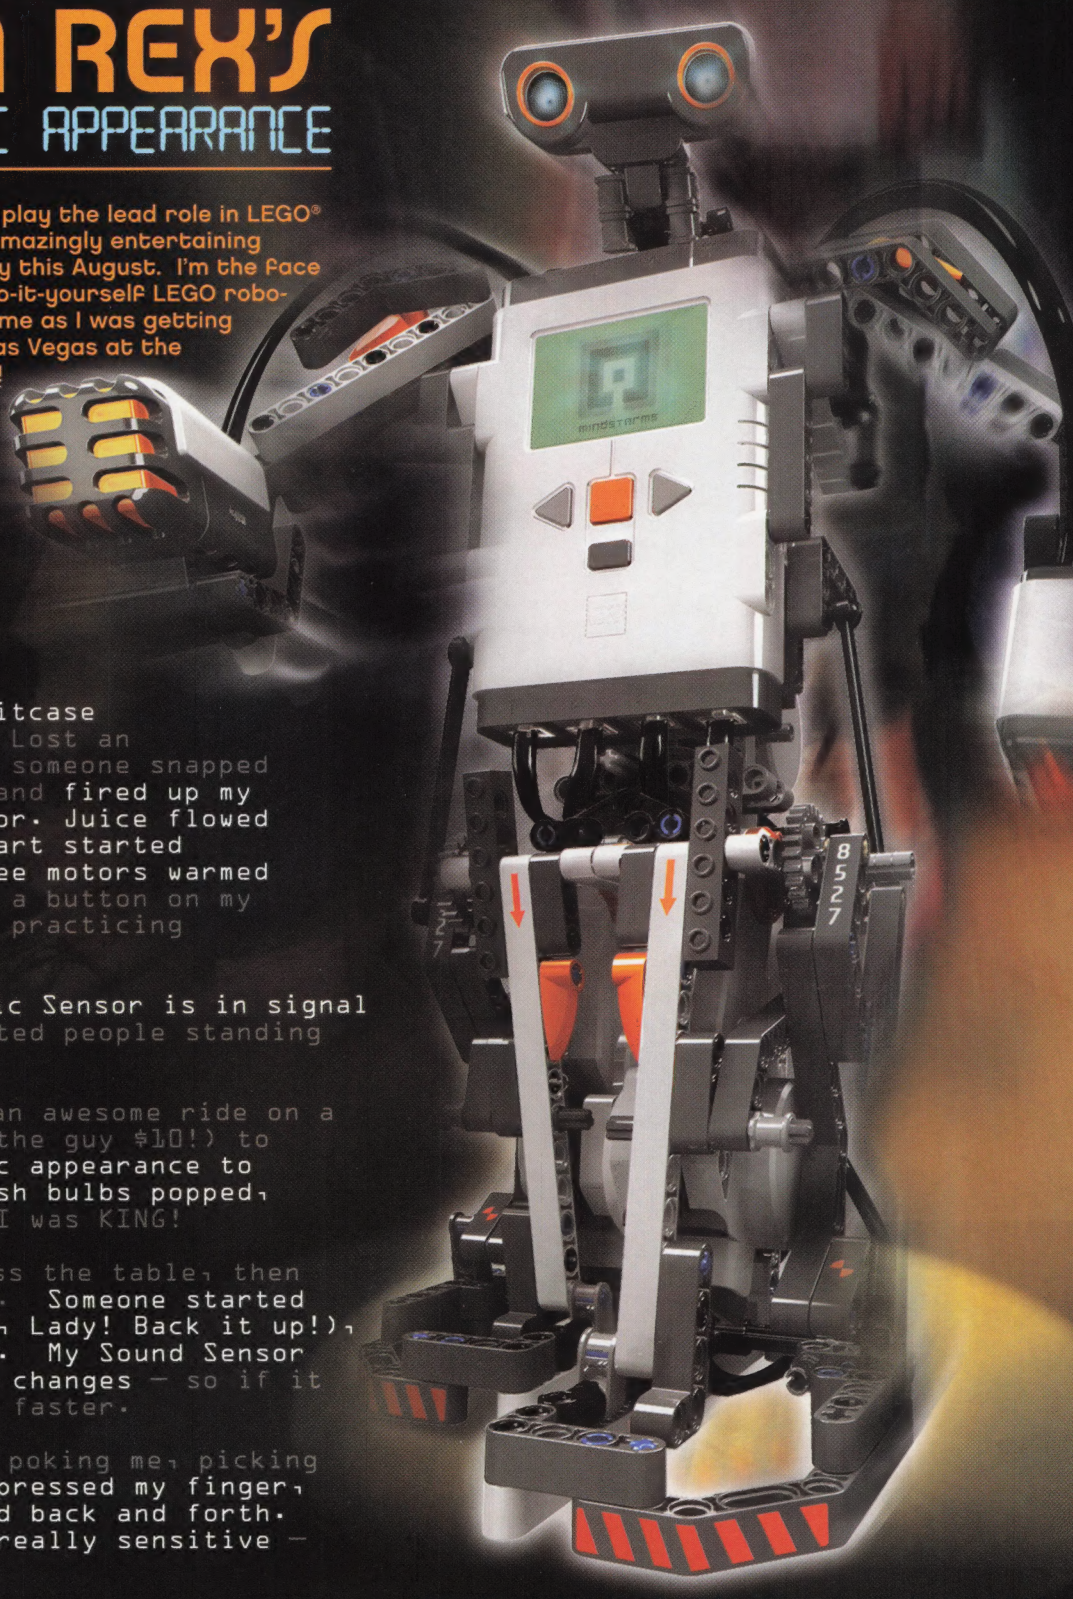

7:30PM: People keep poking me, picking me up...then someone pressed my finger, and my arms shuffled back and forth. My Touch Sensor is really sensitive — that tickled!

10:00PM: : I'm exhausted! Walk! Dance! Stop! Faster! Slower! I'm in sensory overload... someone shut me off!

LEGO mindstorms®
NXT

Alpha Rex is one of the cool robots you can design, build and program to do anything you want, using the new LEGO MINDSTORMS NXT robotics toolset. Available in August, MINDSTORMS NXT features a new intelligent brick with Bluetooth, touch, light, ultrasonic and sound sensors, 3 motors, 7 6-wire cords, USB 2.0 cable, 571 LEGO® TECHNIC® pieces and PC/MAC compatible programming software.

You Could Spend a Weekend with LEGO® SpongeBob!

Introducing the Traveling LEGO® SpongeBob Awesome Adventure Tour! Beginning this May, a LEGO® SpongeBob model will be hittin' shore, ready to travel the country on awesome adventures with the likes of LEGO® Fans like you!

If you are chosen as a "host" for LEGO® SpongeBob, you could:

- Do something nautically nonsensical with LEGO® SpongeBob over a weekend visit
- Take pictures & write a story about what you did with LEGO® SpongeBob and have your photos and stories posted online at www.LEGO.com/SpongeBob in a BLOG so you can track his travels all year long.
- When your weekend is over, LEGO® SpongeBob will go on to visit another lucky host.
- All hosts will receive special Nickelodeon prizes.

At the end of the year, one lucky landlubber will be chosen to receive the Grand Prize, a 4 Foot Tall LEGO® SpongeBob model and other prizes!

Here's what you need to do to enter:

Write a letter telling us what you and LEGO® SpongeBob SquarePants would do on your weekend adventure and mail it in to us. Would you take him out on the town... throw a party in his honor... take him out to dinner? Go overboard and be as creative and as different as you like! We'll select 10 creative entries to host LEGO® SpongeBob for a weekend adventure.

Send your letter to:

LEGO® SpongeBob SquarePants Tour
555 Taylor Road, P.O. Box 1600
Enfield CT 06083-1600

All entries must be received by April 22, 2006

Promotion subject to official rules that can be obtained at www.LEGO.com/SpongeBob
